Invitation to the EUR Seminar 15 May 2007 in Nice

Dear sirs and madams,

The EUR organisation will take the opportunity of the ICAPP conference and exhibition, to be held in Nice on May13-17 2007 to organise a seminar with their counterparts and their natural partners (other utilities, vendors and regulators) in order to keep connected with them.

The EUR Seminar is scheduled for May 15th afternoon, from 2 p.m. to 6 p.m. in the same building as the ICAPP conference and exhibition.

We would like to invite the representatives of the utilities, the vendors and the regulators that are interested in EUR to participate in this EUR Seminar.

The aim of the EUR seminar is:

1- to present:

- the EUR organization today and the work programme for the coming years,
- the final results of the assessment of the AES 92 design versus the EUR Document,
- the final results of the assessment of the AP1000 design versus the EUR Document,
- the revision C of the EUR Vol. 4,
- the updating of the EPR Vol. 3 subset.

2- to discuss the possible co-operation between the EUR group and the utilities, the vendors and the regulators interested in EUR with the aim to impact the next revision of the EUR Document.

All the information regarding the EUR seminar will be available in the coming days in a dedicated page on the EUR Web site : <http://www.europeanutilityrequirements.org>

A participation form will also be posted on the EUR web site. There is no need to be registered at the ICAPP conference to attend the EUR Seminar but an invitation is requested to enter the building. The EUR organisation can provide these invitations.

If you intend to participate in the EUR seminar, please contact the following person :
